

**EUROKIDS, NEPAL
INTERNATIONAL SCHOOL**

Biratnagar 4, Morang, Nepal

Eurokids is a sister school of Kritika Education and Health Foundation and Euro College. It is established in 2004 with the vision of providing world-class education for the children of Biratnagar and neighbouring towns.

The founder, Mrs. Rajlaxmi Golchha, wife of leading industrialist Mahendra Golchha, is educated in Chennai, India. She is the recipient of the coveted Jawaharal Nehru award for Excellence in her Master's Degree in Fine arts, from the University of Madras. Her passion for education and her love for the country, encouraged her to set up KEHF in 2003, then Eurokids in 2004 and lately EuroCollege in 2005.

Eurokids' pre-school is based on Maria Montessori's Casa la Bambini where the children are kept in a home-like environment. They are made to learn Early Life Practical Skills, Language concepts and personal, social and emotional development.

Eurokids' primary and elementary school follows the Nepal board and Cambridge

Curriculum for Numeracy, English and Science. After finishing class 8, the students have to sit for checkpoint exam and after class 10 the IGCSE exam both done under Cambridge International Exam. The school's missions are: to develop a happy and positive learning attitude; to develop and strengthen self-confidence; to form good habits of health and safety; to learn to accept routines and responsibilities; to develop concepts and skills appropriate to his/her stage of maturity; to inspire creativity and individuality by learning through play; to learn about self and the world; to experience natural curiosity by exploring and discovering through structured play; to trust, accept and respect others and their property.

The school take pride to state that its teachers are highly qualified, professionals, experienced and dedicated to make each student excel.

Classrooms are equipped with necessary materials for maximum learning and computers with internet connection. ICT is integrated in all subjects. Teachers use variety of teaching methodologies.

Learning is not only confined in the classroom. Field trip is essential part of

learning. The school believes in the philosophy of "learning by doing".
